

Ownership rules should be repealed. The key ingredient to the success of America over the last two centuries has been America's free-market economy, which is unduly hindered by excessive regulation. In the year 2003, when the "barrier to entry" has dropped astronomically since the introduction of mass-media, it is foolish and counter-productive (and wrong) to prevent media organizations from purchasing, selling, or consolidating with other organizations.

Thank you for your consideration.
